DETAILED ACTION

Claim Objections

Claim 7 is objected to because of the following informalities: on line 3, "Insertiing" should be "inserting". Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 5,490,749 to Arbues.

Arbues discloses that when the winch is in its neutral configuration (pawl is away from ratchet wheel), the winch drum is freely rotated allowing manual tensioning of the tie-down strap; once the tie-down strap is sufficiently manually tightened, the winch drum is locked using the pawl 46 in conjunction with the ratchet wheel 34.

Allowable Subject Matter

Claims 1 and 3-8 are allowed over the prior art of record.

Art Unit: 3654
